FOCUSING ON SAFETY HAS ITS REWARDS

Fund Members to Receive Over \$1.1 Million Back for 2022!

The Michigan Clubs Self Insurance Fund once again rewards its members for outstanding performance and gives back its highest profit return yet! As a member owned self-insured workers' compensation program, the Michigan Clubs Fund has become the largest workers' compensation provider for Michigan's clubs industry.

From substantial profit returns to aggressive claims handling, the Fund is the most cost-effective workers' compensation option for its members year after year. This year, Michigan Clubs Fund members will receive \$1,117,118 credit for good performance on their 2022 renewal. This brings the total returned back since inception to over \$22,620,200 and represents an average of 50% premium return.

The Michigan Clubs Fund's excellent track record has insulated its members from the turbulence of the traditional insurance marketplace to keep its members' cost low and predictable. This competitive pricing, along with the Fund's selective approach to underwriting new members, is designed to save members money on the total cost of workers' compensation over the long term. This results in lower net premium costs based on the excellent performance of the group.

Additionally, the Michigan Clubs Fund takes the responsibility for the costs associated with claims and workplace safety very seriously. Reducing the costs associated with workers' compensation claims means more profit to go back to members. The Fund's Board of Trustees, elected by the members, governs the operation of the Fund and

provides authorization on claims settlements. Also, aggressive claims management and lower caseloads per adjuster allows for more time to proactively handle claims and reduces overall claims costs.

The Fund offers its members numerous safety resources and loss control programs that are specific to the golf course and country club industries. Some of the educational training focuses on creating a safety culture in the workplace, by working with owners/supervisors on proper claims handling, accident investigation, return-to-work programs and making every employee accountable for safety on the job.

The Fund works with loss control specialists who provide sound guidance and cost-saving solutions on safety and loss prevention for its members. The online safety center includes a comprehensive human resource library at no cost to members. It provides information on the most employment laws, as well as a complete range of downloadable forms, posters, and literally hundreds of topics.

For most members, the cost savings is the primary reason they insure with the Fund. It has proven to dramatically reduce the overall costs of their workers' compensation insurance year after year. Each member can further reduce their costs with the help of the Fund's loss control resources by preventing claims and reducing the frequency and severity should claims occur.

Congratulations to Fund members for an excellent job on keeping their premium costs low and employees safe! For more information, contact the Fund Administrator, RPS Regency at 800.686.6640 or visit miclubsfund.org.

administered by

Established in 1983, the Michigan Clubs Fund is endorsed by the Michigan Golf Course Association. The Fund is sold and serviced by a large network of independent insurance agents located throughout Michigan dedicated to the industry. To qualify as a member, the majority of payroll must fall into one of the following classifications: country clubs, golf courses (public & private), athletic clubs, yacht clubs, hunt & riding clubs, and ski clubs.

Take Advantage of these **FREE Value-Added Resources**

The MI Clubs Fund is constantly searching for value-added services that are available to assist members in managing their business.

Midwest Employers Casualty Company

The Fund's excess insurance carrier strives to provide "best in class" service to members by offering online risk management tools:

- Customizable written programs

Loss Prevention *Focus On A Safe Working Environment*

Workplace safety cannot exist on best practice guidelines and policies alone. A safe working environment is based on how well your employees are trained, informed, adhere to and communicate about safety standards to reduce the risks for workplace injury and fatalities. The Michigan Clubs Fund offers a wide variety of workplace safety training; contact RPS Regency for more details on how to implement safety into your company's daily routine.

accident prevention

Top 10 Keys to Accident Prevention

Safety experts have suggested that it's helpful to visualize the accident prevention strategy as a continuous process. As each hazard is identified – whether by reading OSHA standards, consulting other guidelines, or making changes based on workplace observations – you need to analyze the circumstances, diagnose the problem(s), and develop a plan. Only then can you bring about effective corrective action to prevent accidents.

Throughout the process, it helps to ask several questions, such as: Is this problem a physical hazard or a health hazard? How does it threaten my employees? How can we minimize or eliminate this hazard? What specific steps do I need to take to prevent accidents and protect our workers?

Clearly, management shouldn't handle accident prevention alone. They need to engage their employees in the safety process and keep them focused on identifying potential hazards in their workplace. This will result in creating a safety culture where everyone is responsible and accountable. Without employee understanding and commitment, it's highly unlikely that a company's safety initiatives will work in the long run to stop accidents and prevent injuries.

**Generating employees' participation isn't easy.
However, it may help to think about these 10 key words.**

1. Accountability.

Give employees ownership of planning and conducting inspections, for assessing their own data on work hazards, and for creating safety checklists.

2. Leadership.

Set an example by always following your company's safety procedures. Make sure you personally take necessary steps to prevent accidents. That means wearing proper PPE and practicing the same precautions as your workers. Be on the lookout for potential hazards and point them out to your workers.

3. Understanding.

Emphasize that hazards put employees' personal health and safety at risk. Understanding the "why" of safety is a strong motivator. Defuse or identify the long-term and short-term effects of accidents and the costs involved.

4. Commitment.

Work to get commitment to the idea that safety is the number one priority from every one of your employees.

5. Goals.

Set clear standards for workplace behavior – and enforce them.

6. Competence.

Train employees well so that they have the information and develop the skills needed to work safely and avoid accidents. A "competent" person should be at every job site to insure the enforcement of safety policies.

7. Responsiveness.

Make sure you respond promptly to identified hazards and take immediate steps to correct them.

8. Involvement.

Use every opportunity to encourage employees to play an active role in workplace safety and accident prevention. If you see a hazard, do more than just correct it. Apply the learning experience to help workers become more alert and more responsive to potential danger on the job.

9. Feedback.

Praise employees who identify and correct hazards or those who report problems they can't fix.

10. Persistence.

Successful accident prevention is an ongoing challenge. It's something you have to focus on every day, always improving, always setting new safety objectives, and always making steady progress toward achieving them. Safety is the responsibility of everyone in the workplace.
